

The main activities of CERTIFER Algérie are:

- **Independent Safety Assessor** and **CSM Assessor** in accordance with guidelines issued by the Algerian Ministry of Transport (Ministère des Transports)
- Perform in Algeria services and activities offered by the CERTIFER Group (**ISA, Independent Checking Engineering ICE, ECM Certification, Safety in urban integration**) of rail systems, **metro, trams or their components**;
- Participate in **international** CERTIFER certification **on rail systems, metro, trams**.

CERTIFER Algérie operates as **Independent Safety Assessor** in all subsystems (Conventional and High Speed) and sectors (**subsystems Rolling Stock, Control Command and Signaling, Energy, Infrastructure, Maintenance, Operations, Combined Transport sector**). CERTIFER Algérie operates as **CSM assessor** and **Attestation body for ECM - rolling stock other than wagon**.

For our experiences please refer to «Our references" page.

CERTIFER Algérie is at the center of its policy:

- The promotion of **railway system safety**;
- **Compliance with regulations and standard** (compulsory and voluntary);
- Creating and maintaining a **strong competence** on railway systems and related safety aspects;
- **Independence and impartiality** of the assessment;
