DESCRIPTION

Railway operations managers according to EBOA are needed for connecting railways and industrial railways in Bavaria. In most cases, the appointment of a railway operations in the vast majority of cases a technical interview with the state railway supervisory authority.

This seminar prepares the participants for the interview with the supervisory authority and is also suitable for participants without prior knowledge due to the condensed presentation of the overall railway system. System is also suitable for participants without prior knowledge.

The aim of the training is to ensure a successful technical discussion with the supervisory authority and to impart the knowledge required to run the railway operations in your connecting railway and safely run the railway operations in your connecting railway in accordance with the regulations.

We are also happy to offer you this seminar on site at your company as an in-house seminar. Please do not hesitate to contact us!
