

Safety management for Urban Guided Transports according to STPG/STRMTG (French OQA mission)

DESCRIPTION

French Decree No. 2017-440 of March 30, 2017 relates to the safety of guided public transport (STPG). This decree sets the safety rules relating to the design, construction and operation of guided public transport systems defined in Article L. 2000-1 of the French Transport Code.

This seminar covers the OQA (French Recognized Qualified Body) mission. In addition, this seminar will provide you with the necessary basic knowledge about the approval and safety process as well as the methodology of verification of safe operation from the derivation of the (safety) requirements to the corresponding verification documentation. We will show you the methods according to the relevant French legal regulations and standards and give you an overview of the system life cycle phases and the respective required RAMS and approval activities.

SEMINAR CONTENTS

DAY 1 09.30-17.00
