

Rolling Stock – Project Manager (M/F) – Valenciennes

CERTIFER is a French railway certification company founded in 1997. Headquartered in Valenciennes (France), the CERTIFER Group is present in ten countries with subsidiaries in Algeria, Australia, Belgium, Brazil, France, Italy, Spain and Turkey and branch in UAE and Viet Nam.

The CERTIFER Group is acting as a designated body (DeBo) in Belgium, France, Algeria, Luxembourg, Italy, Spain, Switzerland and Turkey and as notified body (NoBo) at European level. CERTIFER is also recognized as Assessor (ISA) for independent safety assessment and as Assessment Body (AsBo) for risk management assessment following the common safety methods (CSM-RA).

In order to reinforce its **Rolling stock team**, CERTIFER is looking for a **Rolling stock engineer in order to perform projects and assessments**.

Responsibilities:

In collaboration with Certifer's project managers and assessment teams, he/she will be responsible for day-to-day **railway and urban transportation projects** and assessments:

- ✓ Management of projects : Interface with customers, assessment teams and other Assessment bodies
- ✓ Contribution to the preparation of safety/interoperability assessment plans
- ✓ Review of technical/project documentation, safety/interoperability assessment and audit reports

According to his/her experience, the Project Manager could carry out technical assessments:

- ✓ Providing his/her expertise for the assessment activities in rolling stock field (train components, ...)
- ✓ Realization of safety (CSM-RA, CENELEC, national standards), interoperability assessments (according to TSIs) for railway and urban transportation projects

He/She will closely follow legislations and standards evolutions at National, European and International level.

He/She will participate in keeping and developing Certifer knowledge related to his/her expertise.

Background:

- ✓ Master's Degree in engineering
- ✓ At least 5 years of professional experience, with an extensive experience in railway and urban (metro/tramway) transportation sector

Technical knowledge:

- ✓ Thorough knowledge of rolling stock systems and components
- ✓ Relevant knowledge of safety and interoperability standards and regulatory framework and/or inspection and certification field would be an advantage

Skills:

- ✓ Excellent language skills: French (native speaker) and a B2/C1 level in English; Another language would be an asset
- ✓ Geographically mobile: likely to undertake short-term assignments in France and abroad
- ✓ Open minded, well organised, and proactive
- ✓ Problem solver
- ✓ Able to work independently, set priorities and meet deadlines
- ✓ Facility to conduct audits and writing reports (technical audit and safety assessment)

What we offer:

- ✓ A motivating working environment within a growing group, offering various opportunities
- ✓ A fast-growing sector in Europe and worldwide.
- ✓ A Permanent contract.
- ✓ A Remuneration commensurate with skills and experience

Interested? Submit your application by email to recrutement@certifer.eu

The job will be located in **Valenciennes**.
