

Project Manager and Security Evaluator (ISA/AsBo)

In order to strengthen its **team in Brussels**, CERTIFER is looking to hire a Project Manager to carry out management and technical assessment activities in the field of rail safety.

He will be part of the Brussels team based in Madrid. Report directly to the Head of Signalling in Brussels. He will support the Madrid team on necessary occasions

Role and Responsibilities

As a **Project Manager** you should:

- ✓ evaluate the scope of the signatures to refine the application of evaluation regulations
- ✓ support the preparation of offers (technical and commercial) based on the request for tenders
- ✓ follow up on requested actions and feedback from the assessment,
- ✓ identify risks at the project level,
- ✓ interact with the customer, other assessment bodies and railway safety authorities,
- ✓ ensure respect for company quality processes

As an **Evaluator**, you must:

- ✓ Carry out the evaluation of safety projects (ISA/AsBo): Review of documentation, on-site inspections; completion of the evaluation, establishment of evaluation reports, ...
- ✓ Support and coordinate parts of the evaluation in the sector experts of the CERTIFER portfolio
- ✓ provide specific experience in assessment activities.

Minimum requirements

- ✓ industrial engineer or similar,
- ✓ Comprehensive knowledge of **Regulation CSM-RA 402/2013**,
- ✓ Comprehensive knowledge of **CENELEC standards 50126, 50128 and 50129**
- ✓ extensive knowledge of general railway regulations
- ✓ experience in railway safety of **more than 3 years** if you have a master's degree in engineering or **5 years** if you only have a degree in engineering
- ✓ high level of **English**
- ✓ **medium/high level of French** (suitable for professional development)
- ✓ ability to work independently and as a team, set priorities and meet deadlines,
- ✓ ability to communicate with customers for inspections and business matters,
- ✓ availability to travel on time for meetings, on-site inspections and/or audits.

Measurable Requirements

- ✓ Knowledge of Technical Specifications – **ETI Control-Command and Signalling and ETI Rolling Stock**
- ✓ Experience in signage, both on board and trackside
- ✓ Knowledge of other signalling systems (LZB, CONVEL, EBICAB, ASFA, TBL1+...)
- ✓ experience with other types of mobile equipment (trams, metros, ...)
- ✓ Knowledge **Decision EU Modules 2010/713**
- ✓ experience in carrying out independent assessments of the regulations cited herein
- ✓ Dutch/Portuguese

What we offer

- ✓ Additional benefits
- ✓ Positive and dynamic environment
- ✓ Professional development plan
- ✓ Homework policy
