

Job Description: Health and Safety Management System Expert

We are seeking a highly experienced Health and Safety Management System Expert to join our team based in Saudi Arabia.

As a Health and Safety Management System Expert, you will play a crucial role in ensuring the implementation of effective health, safety, and environmental (HSE) management systems within our client's organisation.

Responsibilities:

- Implement and operate HSE management systems in compliance with relevant standards such as ISO 9001, ISO 45001, and ISO 14001.
- Integrate health and safety management within the overall risk management approach of the organization.
- Provide expert guidance and support in developing and maintaining effective HSE policies, procedures, and practices.
- Conduct regular audits and inspections to identify potential hazards, assess risks, and ensure compliance with applicable regulations and standards.
- Collaborate with cross-functional teams to develop and implement safety improvement initiatives.
- Train and educate employees on HSE policies, procedures, and best practices.
- Investigate accidents, incidents, and near misses, and develop appropriate corrective and preventive actions.
- Stay updated with the latest industry trends, regulations, and best practices related to HSE management systems.
- Provide expert advice on HSE requirements for greenfield construction projects (desirable).

Requirements:

- Minimum 10 years of experience in health and safety management systems.
- Willing to accept an initial short term assignment, with prospect for extension.
- In-depth knowledge and experience with ISO 9001, ISO 45001, and ISO 14001 standards (or relevant standards).
- Proficiency in safety management and project management principles.
- Proven track record of successfully implementing and operating HSE management systems.
- Strong understanding of risk management principles and their application to HSE.
- Experience working on greenfield construction projects is desirable.
- Excellent communication and interpersonal skills.
- Strong analytical and problem-solving abilities.
- Relevant certifications (e.g., Certified Safety Professional) are preferred.

Joining our team as a Health and Safety Management System Expert will provide you with an opportunity to make a significant impact on the safety and well-being of our client's organisation and its employees. If you have the required experience, expertise, and passion for promoting a culture of safety, we encourage you to apply.
